INTEROPERABILITY AND  
SITUATIONAL AWARENESS OF  
EVENTS AT AN INCIDENT SITE**

DECISION ON PETITION TO  
MAKE SPECIAL FOR NEW  
APPLICATION UNDER 37  
C.F.R. § 1.102 & M.P.E.P. §  
708.02

This is a decision on the petition filed on January 31, 2007 to make the above-identified application special for accelerated examination procedure under 37 C.F.R. § 1.102(d).

The petition to make the application special is **DENIED**.

REGULATION AND PRACTICE

To be eligible for accelerated examination under 37 C.F.R. § 1.102(d) and pursuant to the "Change to Practice for Petitions in Patent Applications to Make Special and for Accelerated Examination" published in the Federal Register on June 26, 2006 (71 Fed. Reg. 36323) and effective August 25, 2006, the following conditions must be satisfied:

1. The application must be a non-reissue utility or design application filed under 37 CFR 1.111(a);
2. The application, the petition and the required fees must be filed electronically using the USPTO's electronic filing system (EFS), or EFS-web; if not filed electronically, a statement asserting that EFS and EFS-web were not available during the normal business hours;

3. The application, at the time of filing, must be complete under 37 CFR 1.51 and in condition for examination;
4. The application must contain three or fewer independent claims and twenty or fewer total claims and the claims must be directed to a single invention.

The application as filed is not eligible for the accelerated examination under 37 C.F.R. § 1.102(d) at least because the application, the petition and the required fees were not filed together electronically using the USPTO's electronic filing system (EFS), or EFS-web.

For the above-stated reason, the petition is denied. The application will therefore be taken up by the examiner for action in its regular turn.
